Dear Customer,

Coronavirus Update:

Please know that our Family at Hansen Bros Fence fully understands and appreciates the fact that we need you more than you need us. That is why the Hansen Family has worked tirelessly for 78 years to guarantee your satisfaction; we have an old school commitment to excellence that has transcended from my Grandfather to today. That is why Hansen Bros Fence leads the fencing industry in referral work, and the percentages to the other companies in the industry aren't even close. We treat each and every customer as though you are our only customer - we consider you Family.

And for that very reason, we want to reassure you that in these troubling, uncertain times we will still be serving you; we are considered an essential business under infrastructure and safety. So, we will be working just as hard as we always have, arduously committed to your gratification.

Furthermore, we want you to realize that NOTHING is more important to us than your health and safety - please realize we do consider you Family.

We want you know that we are still open, and we will be working through these uncertain times, but we want you to understand with unequivocal certainty that we will take every precaution there is to protect you. We will avoid personal contact; we will social distance; every truck will be equipped with sanitizer and/or disinfecting wipes; and we will be using the aforesaid in a prodigious fashion.

We will be able to perform your bids and install your fences and landscaping needs in the same professional manner that you all have come to know. And we will do so while maintaining your safety and your good health.

Lastly, in the 1940's my Grandfather and his crews that weren't already serving donated their time to collect and convert baby carriages into field hospital carts, and collected and stripped down vacuum cleaners for the parts that were used to help develop gas masks.

In that same giving, patriotic light we are currently donating our time to deliver groceries to the elderly and/or vulnerable that are unable to shop for themselves. We are also providing box lunches for children that are no longer able to depend on the schools to feed them.

We will all get through this TOGETHER, and we truly appreciate your continued business through all of this - like we said earlier - we sincerely need and truly value you.

Christian Hansen
